CITY COUNCIL PROCEEDINGS

City Fathers Look for a Scheme to Increase Municipal Revenues.

BINGHAM WOULD ATTACK CIRCUS FEES

Proposition to Levy on a Certain Portion of Their Gross Receipts-Other Matters Before the Meeting.

A plan was introduced at the regular meeting of the council Tuesday night by President Bingham looking to the increase of the city's revenue from licenses. It is a fact that the income from this source has been ebbing for several years, making the burden correspondingly heavy on the taxpayers, who have been obliged to make up the deficiency. Bingham proposed to collect a larger tax from circuses and in addition to levy on a certain portion of their gross receipts. He said that these enterprises carried out of the city large amounts of money and likewise often succeeded in evading the full amount of the tax. The law specifies thirty or more cars, shall pay into the treasury \$300 for the privilege of pitching its tents in the city limits. There is no way of determining, however, with any degree of amurance whether the show has the number of cars reported by its business agent.

In answer to the objection that it would be likewise difficult to determine the amount of gross receipts, Mr. Bingham said that the plan had been tried successfully ferred designating Harney street as a boulein Denver and other cities, though he was vard from Twentieth to Thirty-first, not informed as to the methods pursued. He believed, however, that the city's revenue could be materially increased if the matter were followed up. The city clerk will correspond with Denver, Kansas City and St. Paul on the subject and with the aid of information so obtained the committee on fire, water and police will frame an ordinance:

Several ordinances relative to peddlers', auctioneers' and similar licenses were read for the third time and passed. They previde a slight reduction to offset an increase imposed during the expositions and allow applications for semi-yearly licenses instead of the full period of twelve months. These alterations are made with the view of showing greater leniency, now that trade of the character referred to is supposed to have diminished

Sympathy for the Boers.

A resolution was introduced expressing the council's sympathy with the Boers in their present conflict and advising certain action as follows:

Whereas, A state of war exists between of Great Britain and the and Orange Free State in South

Africa; and, Whereas, The success of the British Whereas, The success of the British arms means the overthrow ond destruction of the Boer republic and Orange Free State, thus striking a deadly blow at free representative government and arresting the progress and growth of republican institutions, which it is the duty of every American citizen to encourage and promulgate to the end that governments everywhere on the habitable globe may rest on the consent of the governed; therefore, be it

Mayor Moores clearly defines his position with reference both to voting machines and changes in ward lines. He remarked this morning that he did not wish to secure renomination or re-election by gerrymandering the wards. With regard to the voting machines the mayor says:

"I am in favor of voting machines and believe in securing and adopting the same at the earliest time practicable. At the same time I am not in favor of purchasing voting machines to be used at the spring election, I consider the Australian ballot law, with which the people are now thoroughly familiar, as good enough for me If there is any doubt regarding the legality of voting machines under existing law do not wish that doubt involved in an elec-
